GRAPE VARIETY

Favorita 100%.

REFINING PROCESS

Picking began as early as the end of August with the grapes used for making sparkling wines, and continued immediately afterwards with the white wine varieties. The quality was noticeably excellent. In early September the white wine grapes showed excellent sugar levels, and a good acid profile with a diminishing trend, leading to start harvesting early to preserve the aromas.

ORGANOLEPTIC CHARACTERISTICS

In the glass our Langhe Favorita shows his straw yellow color with greenish reflection, which shows it is a young wine.

The nose is an enveloping aromas of ripe fruit and flower as well, well balanced with the freshness gave from the mineral notes.

Excellent structure, well-balanced with a typical note at the end of bitter almond.

A wine which can be perfectly paired with fish, fresh salads, soups and fish carpaccio.
