

PALLADINO  
SERRALUNGA D'ALBA

## BAROLO D.O.C.G. 2015 DEL COMUNE DI SERRALUNGA D'ALBA

### PALLADINO HISTORY

Starting from 1974 Palladino family manage the company drawing inspiration from the principle of fidelity to tradition and the characteristics of the territory. A simple philosophy, focused on the link with tradition, on respect for the terroir and the passion with which they communicate these values throughout the world. The TERRITORY finds expression in the purity of production of the historical Piedmontese denominations and in the ability each wine possesses, capable of summarising, with its own aroma and flavour, the specifics of the grapes' terroir of origin.

### TASTING NOTES

Exuberant, dark and generous, the 2015 Barolo del Comune di Serralunga d'Alba reflects the characteristics of this warm vintage, further reinforced by the territory-specific power you get from this township. This wine is all about muscle and power, but the tannins are softly integrated and there are no hard edges here. Indeed, the wine is relatively accessible and straight-shooting from start to finish.

### VINEYARD

Located on the far eastern side of the Barolo production zone, Serralunga d'Alba has always been considered one of the most important among the appellation's townships, a consequence both of the excellent level of many of its vineyards and of the inimitable character of its Barolo, at times solid and austere, at other times surprisingly elegant and expressive.

This wine sees fruit sourced from five vineyard sites within Serralunga d'Alba: Parafada, Gabutti, San Bernardo, Serra and Ornato.

### WINEMAKING

Harvest was on October 5th. Long fermentation (30 days) in stainless steel at a 86°F. Malolactic fermentation in November in concrete barrel.

In the month of June 2016 was placed for 2 years in big barrels of Slovenian oak. Bottled in the month of August 2018 spent two years in the bottle.
